SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Statement is filed in the application identified above pursuant to 37 C.F.R. § 1.56. No representation is intended that a complete search has been made of the prior art or that no better art references than those listed herein are available. Each item of information contained in this information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this information disclosure.

This statement supplements a statement filed on April 28, 2005 which cited one (1) article. An International Search Report has been received in the co-pending Taiwanese patent application (Application No. 093101735) and the references first cited in the International Search Report dated July 14, 2007, not more than three months or before the mailing of the first office action on the merits prior to this submission, have been included with this statement.

Pursuant to 37 C.F.R. §1.98(a)(2)(ii), copies of the U.S references are not required because they are U.S. patents.

The filing of this Statement shall not be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability as defined in § 1.56(b). None of the cited art is believed to disclose or suggest the invention recited in the claims of the above-identified application. It is therefore believed that the claimed invention is patentably distinguishable over these references.

Applicants do not believe that any fees are due in connection with this Information Disclosure Statement. However, the Commissioner is authorized to charge any fees that might be due in connection with this Statement to Deposit Account No. 10-0435, with reference to Matter No. 20150-74359.

Respectfully submitted,
